<input type="checkbox"/>	3	zh-CN	Chinese	True	
<input type="checkbox"/>	4	nl-NL	Dutch	True	
<input type="checkbox"/>	5	el-GR	Greek	True	

2. Remove language

In “Culture List” page, check the checkbox in front of language and click “Delete” button.

3. Enable / Disable language

In “Culture List” page, click “Edit” button and uncheck “Enable” setting then click “Update Culture” button

Please note that the language dropdown in storefront will not display the languages that are disabled.

4. Adding Language Text

VevoCart used language text in storefront for display multiple languages. You can define new language text parameter by insert [\$mytext] in the code.

If the language parameter of selected culture in language dropdown doesn't exist in language text list, storefront will use text from default language for display in storefront.
